

Kwikpic frontend tasks for internship selection

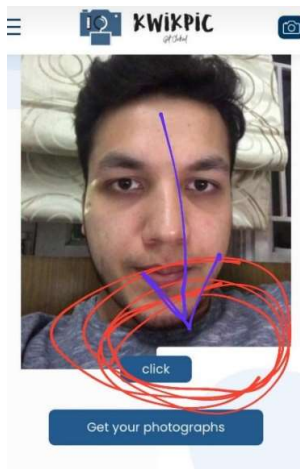

Task 1

Fix click.html to show the face shape overlay correctly (Stretch it to fill the canvas). For mobile, cover with some different image.

Task 2

Fix the background, so it is behind the canvas for iPhones.

Task 3

Same file as task 2, add arrows in carousal.

Task 4

Same file as task 2 and 3. Add a similar carousal at the top of the website.
